

K-Love radio gives me news topics that I don't get on my local radio or Tv. My kids listen to K-Love and tell their friends about the neat programing of K-Love. I don't hear offensive language or subject matter on K-Love. K-Love gives people phone numbers that they can call into and talk to a real person for help not a recording. I don't hear other stations being concerned about my personl wellbeing. when other stations are playing on the scool bus kids misbehave very bad. my daughter tells me when K-Love is on the bus the kids are not as hyper and misbehaving making it a more enjoyable ride. Pulling K-Love from our area would leave us with no choice for decent family encouraging listening music or topics that relate to our interests.
